Mohamed Amine Neggaoui

Developer in the making — student at 1337 (42 Network)

neggaoui.app · github.com/amine-negg · instagram.com/amine_neggaoui

Profile

Ambitious developer building strong foundations in computer science and software engineering through hands-on projects. Goal: become a skilled Full-Stack Developer, with an interest in low-level programming.

Education

1337 Coding School — 42 Network (current student)

Skills

Using: C, JavaScript, HTML5, CSS3, Git & GitHub, Linux / Ubuntu, GCC, Makefiles, command line

Learning: Node.js, API integration, authentication flows, Python, data structures, algorithms

Projects

1337 Arena (in development) — leaderboard platform for 1337 students: Intra API integration and login, campus rankings, logtime tracking and goals, interactive dashboards. HTML, CSS, JavaScript, Node.js.

Libft (42 Network) — my own C library: string, memory and character functions, dynamic allocation, linked lists.

ft_printf (42 Network) — custom printf in C using variadic functions and format specifiers.
